

Cambridge Biomedical

Cambridge Biomedical Inc. announces the launch of the first iPhone and iPad app for Contract Research and Clinical Diagnostic Testing. Download now on the Apple [App Store](#)

This app will provide the vital information required by our clients in the mobile, fast paced, connected age we live in.

Features include:

- **Quick links** to our website with up to the minute information on our
 - Diagnostic Laboratory tests
 - Contract Research Services
 - Latest News
- **Real Time, Clinical Diagnostic Laboratory status** with automatic alert when changes occur
- **Call Us-Direct** link to our phone line
- **Secure access** for our registered clients to their data
- **Easy access** to our corporate slide deck
- **Maps** and details for directions to our facility
- **Convenient glossary** of terms used in our industry
- **Direct access** to our **Twitter Feed**
- **Live video** from our offices, check out the view across the Charles River

Enjoy the game we have incorporated to while away those few moments of leisure!

For further information please download the app or visit our website
